

# LEVEL 3 FOUNDATION IN SECURITY MANAGEMENT

## ABOUT THIS COURSE

### INTRODUCTION

The Foundation in Modern Security Management course looks at a modern approach to security and how to manage this sometimes complex but rewarding role. A security manager's objective is to protect the company's assets including people, property and information, as well as brand reputation. Our Level 3 Security Manager training course has been designed and written by security experts, ensuring that you benefit from the most modern and relevant content available. The course will provide you with the knowledge and skills to become a competent security manager operating across various industries.

### WHO SHOULD ATTEND

This course is for those that wish to embark on a career as a security manager or those that want to increase their knowledge in security. This course is also a benefit for those contemplating our Level 5 Security Management course.

### COURSE AIM

To provide the required skills and knowledge to become a competent security manager.

### COURSE LENGTH

5 Days plus e-learning.

### DELIVERY

The Level 3 Foundation in Modern Security course is classroom based meaning that you gain the most from this qualification through direct contact with your tutor. In addition to this, you will also receive access to your own Learning Management System which will allow you to access in depth e-learning materials. The e-learning is used to compliment the knowledge taught on the classroom based course and provide students with ongoing support and reference material. On completion of the 5 day classroom course, you will have assignments to complete which can be downloaded from your Learning Management System.

### CERTIFICATION

Industry Qualifications Level 3.
