

LEVEL 5 BUSINESS CONTINUITY MANAGEMENT PROFESSIONAL

ABOUT THIS COURSE

INTRODUCTION

In the past Business Continuity was seen in a one-dimensional way in that there was no link to Business Continuity being thought of as providing competitive advantage to an organisation although this view has changed over the last 40 years. It is also vital as an organisation to fully identify the critical activities with an organisation, the range of risks an organisation could be exposed to and how to optimize Business Continuity in the event of an incident or disaster being realised. This course explores the methodology and practices of effective Business Continuity Management and is aimed at those persons responsible for BCM within their organisation or on a wider scale.

WHO SHOULD ATTEND

This course is for those that wish to embark on a career as a Business Continuity professional and those that are already working within a BCM role.

COURSE AIM

To provide the required skills and knowledge to become a competent Business Continuity Management professional.

COURSE LENGTH

5 Days plus e-learning (150 guided learning hours).

DELIVERY

The Level 5 Business Continuity Management Professional course is classroom based meaning that you gain the most from this qualification through direct contact with your tutor. In addition to this, you will also receive access to your own Learning Management System which will allow you to access in depth e-learning materials. The e-learning is used to compliment the knowledge taught on the classroom based course and provide students with ongoing support and reference material. On completion of the 5 day classroom course, you will have assignments to complete which can be downloaded from your Learning Management System.

CERTIFICATION

Industry Qualifications Level 5.
