

LEVEL 5 PHYSICAL SECURITY

ABOUT THIS COURSE

INTRODUCTION

Physical security is the means to protect locations, personnel and assets from various threats including unauthorised access, cyber attacks and other potential breaches which could occur. Understanding the capabilities to deny unauthorised access to buildings, assets and information is a key element of implementing an effective physical security strategy. This course will explore physical security in its entirety and provide a high level of knowledge on the subject.

WHO SHOULD ATTEND

This course is for those that wish to embark on a career as a physical security manager, it is also relevant to those persons responsible for the safety and security of their organisation's buildings and assets.

COURSE AIM

To provide the required skills and knowledge to become a competent physical security manager.

COURSE LENGTH

5 Days plus e-learning (150 guided learning hours).

DELIVERY

The Level 5 Physical Security course is classroom based meaning that you gain the most from this qualification through direct contact with your tutor. In addition to this, you will also receive access to your own Learning Management System which will allow you to access in depth e-learning materials. The e-learning is used to compliment the knowledge taught on the classroom based course and provide students with ongoing support and reference material. On completion of the 5 day classroom course, you will have assignments to complete which can be downloaded from your Learning Management System.
