

1 DAY INTRODUCTION TO RISK MANAGEMENT

ABOUT THIS COURSE

INTRODUCTION

This course has been designed to introduce participants to Risk Management especially in terms of management and business environments, and how best to respond when risks are realised. We will show you how to identify the risks your organisation may be exposed to including generic and specific risks, we will also educate you on managing these risks within your organisation. If you are interested in or have a responsibility for the management of risk then this is the course for you.

This one day course focuses on:

- Risk identification
- Risk assessment
- Risk mitigation
- Risk contingency planning
- Risk tracking and reporting
- How to balance risk and reward

COURSE AIM & LENGTH

To provide the knowledge associated with Risk Management.

1 Day – 9.30am to 4.30pm

WHO SHOULD ATTEND

This course is for those that would like to learn more about Risk Management and how to better identify, assess and manage risk within the workplace or corporate environment. The course would also benefit supervisors and managers who are responsible for business risk within their organisation.
